

Service Bulletin - Integrated Encoder

Change log:

[2023:10]

PRODUCT INVOLVED: GD, GDI and NL120Q/X series.

STARTING FROM S/N: DA00014400

ACTION: Encoder SIN/COS Electronics changed. New signal conditioning, filtering and digital calibration.

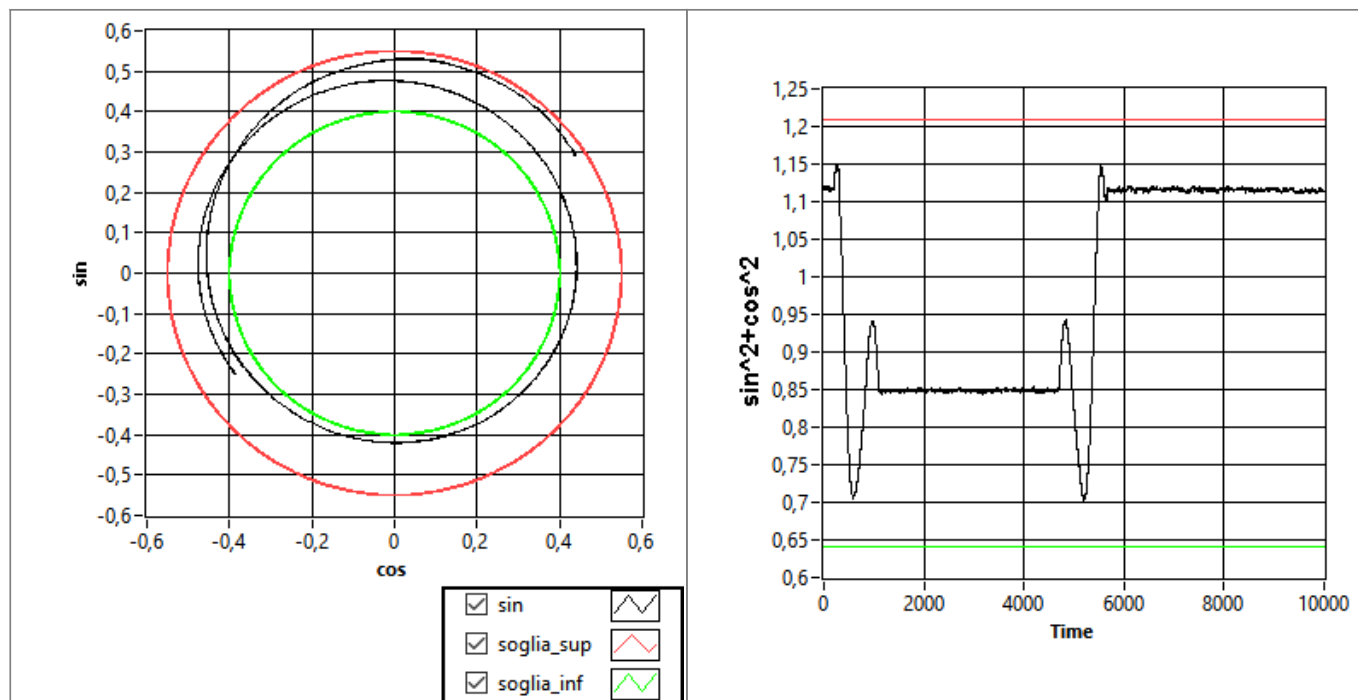

- Protection against wrong voltage application, voltage inversion and output protections.
- Better signal quality, Offset cancellation and Peak to Peak variation reduction
- Digital Filtering

WARNING:

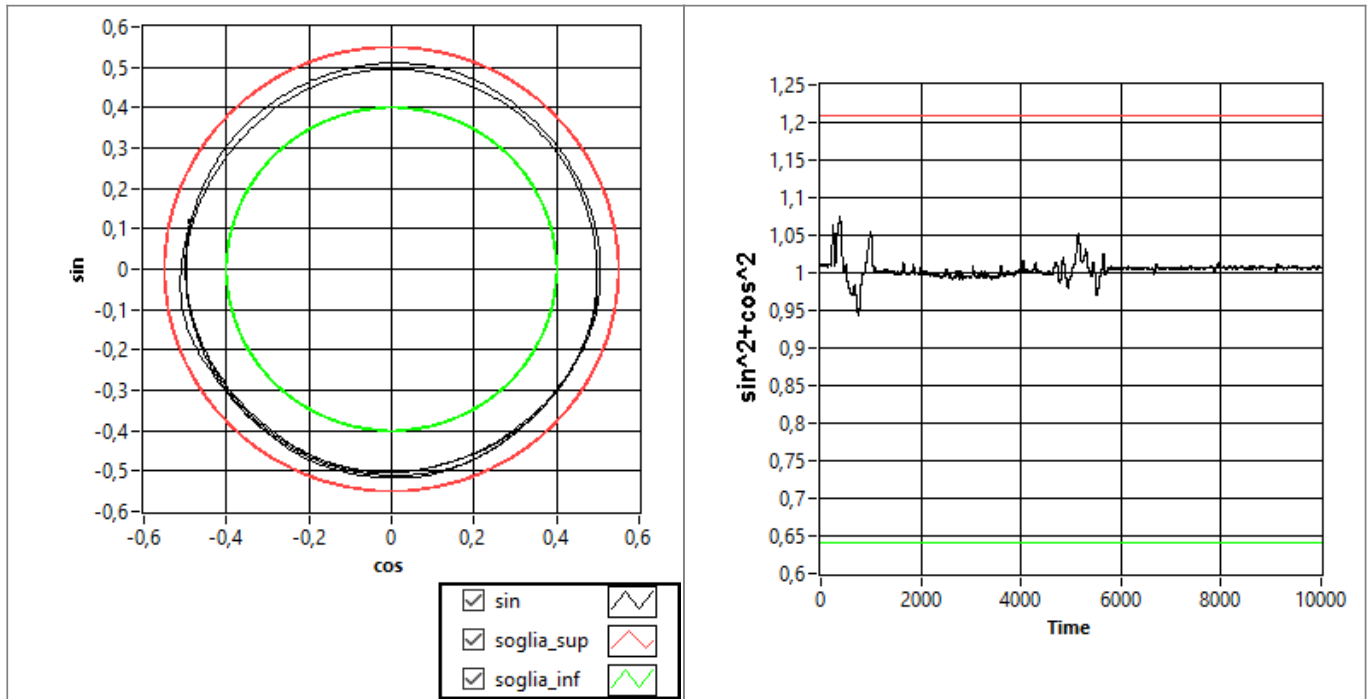

- 1) New phase angle must be calculated from the servo drive !
- 2) Possible deviation of the tuning parameters on the servo drive
- 3) Possible needs to retuning the offset and gain if a calibration on the servo drive is present.
